"Don't think. Just Rizzr it."

One engine (voice note → AI → reply), split into 4 situations. Swipe to move between them.

KEY FEATURES

SOON

The 'fake-call' mode. Rings in a believable contact at the right moment so you can exit an awkward talk with zero explanations.

"I want a graceful out."

KEY FEATURES

HOW IT WORKS

SOON

Audio replies read in YOUR voice — cloned and tuned to you, not a generic text-to-speech voice. They'll think you said it yourself.

“Sound like me, not a robot.”

KEY FEATURES

SOON

Reads the emotion in their voice — annoyed, excited, cold — and tunes every reply to match the mood, so you never say the wrong thing.

“How are they really feeling?”
